Activity: Record video of child speaking rhyming words | Language & Communication | 5 years

Skill development milestone

The child can speak very clearly now. He/she has learnt all letter names and letter sounds for consonants. They have learnt that clusters of letters separated by space, form words. The child may read a few short, regularly spelled words. The child has learnt to decode by identifying sounds for printed letters and synthesizing sounds across letters to form words. The child asks for alternate words for the same object/word in different languages.

The child can produce 5 to 7-word sentences. They can tell familiar as well as creative stories using pictures as cues. They have learnt to use the past tense.

Activity description

The child needs to speak 15 English words which rhyme with each other. The child can pick any set of words which the child is comfortable to recite

When you feel that the child is ready to submit his/her entry, record a video of the child reciting the words.

The video should be submitted as an entry as per submission guidelines.

You may share the video with family (1st circle), relatives & close friends (2nd circle) or acquaintances (3rd circle) as desired by you. Or post the videos on social media (public), if you wish, with the hash tag #KidExDIYChallenge or #KidExDIYNationalChallenge.
