Expert coach speaks

Whenever a child is alone or by himself/herself, they suddenly have to manage their responsibilities on their own. They have to deal with things that they took for granted. In such scenario, it is important for them to know how to tackle the everyday problems; be it in classrooms, hostel or even with friends. They need to know how to deal with the harsh realities of life in a smart manner. Being street smart thus becomes a necessity in a child's life. For, we all live in a world where everyone is a part of a race. To beat them, you need to be able to outsmart them, which cannot be done on the basis of textbook knowledge alone.
