Self-Learning Manual: Activity 19

Socio Emotional:

Acting

Age: 5 years

Activity description

The child is required to deliver an acting performance like a shopkeeper. The child is required to enact the performance for 60 seconds. The child is not required to dress up for the performance.

The acting could be child speaking any dialogue like a shopkeeper, or trying to copy the accent of the shopkeeper or the body language/movement of the shopkeeper or all of the above. The performance may have pauses as long as it fits into the acting monologue – any unrelated, long silence would be considered as dead time of the performance & won't be counted for assessment.

The child is not expected to be prompted anything but act on his/her own without reading dialogues from anywhere. Whenever the child is ready, record the video. Entire video should be recorded at one go & no editing/video merging is allowed. All edited videos would be disqualified for assessments.

Whenever the child is ready, record the video of the child as instructed & submit.

Expert coach speaks

Children should be introduced to drama & acting even if they are not interested in pursuing it professionally. It is a great fun activity. Moreover, in acting, students use their imagination to ground themselves in character, expand their senses while using the space, and dig deep into the circumstances that the character must live.

Students learn to build their work from the inside out by asking the Who, What, When, Where, Why and How of a character, and learn to seek out the truest expression and life of that person. It builds thoughtfulness & expressiveness amongst children.
