### Expert coach speaks

Key coaching tip to excel in this exercise is that use the word in front of the child often (with right pronunciation). Encourage the child to listen to the word and repeatedly pronounce the word.

Language requires a lot of repetition and reference experiences. Listening and speaking are much more effective ways to memorize and retain the learned language. It would also be helpful to incorporate the learned word in conversation since contextual memories will help the child remember it better.

### Key benefits of this activity

The activity benefits in many ways:

- Increases brain power
- Improves memory
- Enhances multi-tasking ability
- Multi-lingual knowledge improves first language knowledge & practice as well
- Improved cognitive skills

#### Common mistakes to avoid

- *Not starting from sounds. Sounds are the first step to learning a new language.*
- *Getting discouraged by making mistakes. Practice is the key so find ways to not get bored or lose hope.*
