## Activity description

The child is required to colour any full-face mask using crayons and/or water paint. The mask can be of any character - a cartoon, superhero, bird or an animal.

The child's parent may create the face mask & hand over to the child (refer web link resources section below to see quick / easy way to create simple full face masks). To make the mask use the material that is basic and readily available at home. The simplest of masks can be made using paper, scissors, paints /crayons, adhesive, pencil/marker, and a string/thread.

Let the child colour the mask and decorate it using at least 3 unique colours. The child can use any colouring material which is readily available at home.

Record a video of the child showing his/her mask, talking about how s/he coloured/painted/decorated the mask. Ask the child to point out & call out the correct name of at least three unique colours used in the mask by the child. Submit the video as per the guidelines.

### Expert coach speaks

*Kids are highly creative by nature. They have an innate liking for all kinds of art forms, be it art, craft, drama, acting, singing etc. Art forms are vibrant and interesting. The kid is fascinated by colours, characters, and their varied representations. Colours never fail to excite the child and s/he encounters different characters in form of cartoons, super-heroes etc on the television or on things around them. The given activity brings colours and character together for the child and give her/him a chance to boost creativity in treating the two.*

### Key benefits of this activity

The activity benefits in many ways:

- Boosts creativity and imagination
- Exercises the left brain
- Provides a chance to step into another character
- Improve art and craft skill
- Provides a chance to articulate about a piece of art

#### Common mistakes to avoid

- S/he gets impatient and handles the mask roughly
- The child does not know the name of the colours
- The boundary of colours is crisscrossing multiple times
